“LEADING THE LEGACY...”

In 2013, The Spatz Association Board of Directors approved its first new leadership development initiative since 1997. The new Spatz Association Leadership Grant Program is designed to recognize and encourage the development of leadership excellence in America’s youth through financial support.

Each year, the Association approves up to \$25,000 in leadership grants to individuals or units at the squadron, group, wing, region, or national level. Grant requests may be of any amount, so long as they are used directly for programs and activities associated with cadet leadership development.

INDIVIDUAL GRANTS

- Designed for cadets who have earned the Billy Mitchell Award, and have at least a 3.0 GPA (normalized on a 4.0 scale).
- Must be used to start a service project, complete leadership training, or perform other leadership development-related activities.
- Are not for powered flight nor academic work. For flight scholarships, cadets may apply for the annual Spatz Association Aerospace Leadership Scholarships.
- Cadet must not have received a similar grant within the past 12 months (from date of application).

UNIT GRANTS

- Designed for units at the squadron, group, or wing level that need funding to conduct CADET leadership development -related activities.
- Are not for powered flight, emergency services, nor aerospace education-related work unless the designed activity has a direct leadership development component.

To apply, see our Grant Program page at www.spaatz.org.
